

# PRAY FOR KENYA

JULY 2024

## OSAGIEDES UPDATE

Last week, for almost 8 hours, we experienced what felt like living in Jos under crisis and the END SARS experience combined.

We heard very loud sounds of tear gas canisters being thrown at protesting youths on the streets, with gunshots and helicopters flying above our neighbourhood. These youths (mostly Generation Z) were challenging the government with regard to the 'Finance Bill', which would push up taxes. It was a showdown between the law enforcement and protesters on the streets of Nairobi and in other towns.

For us, this was very sad, and we see the pain in the hearts of the youths not just in Kenya or Nigeria, but across many countries in our continent because our leaders are not living up to expectation and are not doing right by us their followers.

The biggest pain in our hearts is the fact that people lost their lives, families are thrown into mourning over their relatives who have died or are seriously injured in hospitals.

Our prayer is that after all this destruction, fighting, killing etc. our leaders will listen and alleviate the pain and poverty of its people. We need to use our God-given resources to develop our continent so that we can enjoy the blessings we have naturally been bestowed with.

Our organization's response to this crisis is to provide help for our leaders in Kenya on how manage the youths and provide counseling in mental health.

### **Please pray:**

- For peace in Kenya.
- For grace and wisdom for our organization and the church to respond appropriately.
- For safety for all our staff in Kenya.

Thank you for praying. God bless you.

Serving the LORD with you.
